

Dear Partners, We are glad to present to you and your customers the trademark "SWEET ARTE" is a young, dynamic and promising company in the confectionery industry in Ukraine, specializing in the manufacturing of flour confectionery products.

We offer you and your customers cooperation in the distribution of confectionery products of our trademark.

Our modern and ambitious company started its activity in May 2015. The factory was established on the basis of the former bakery, where extensive modernization and reconstruction of production facilities was carried out, was built a new European-style workshop, modern flow-mechanized lines were installed and highly qualified personnel were selected. Production facilities are located in the Vinnytsia region in the Makhnovka village.

We love and care about our customers, so we pay a special attention to the quality of products. The high quality and safety of Sweet Arte products is achieved through careful controlling of the entire production process - from the selection of raw materials and bookmarks to the packaging finished products. Strict control over the selection of ingredients, which is carried out in our measuring laboratory, allows to exclude the entry of poor quality raw materials. The chief technologist supervises all stages of the production process.

The company's production is certified according to the international quality management system ISO 22000: 2005, ISO 9001: 2015, and also received a certificate of quality HALAL CERTIFICATE.

Besides, introduced a system of food safety HACCP, which makes it possible to timely prevent the occurrence of any risks. Sweet Arte, as a confectionery manufacturer, not only manufactures the final product, but also takes a number of precautionary measures to ensure that its products are safe and meet modern requirements for product quality.

The success of Sweet Arte TM is largely due to its own recipe, the improvement of which is constantly working for our technology. We also attach great importance to the design and appearance of the packing.

Our assortment is the optimal set of products, which has proven itself not only on the territory of Ukraine, but also far beyond its limits.

Currently we are exporting to such countries as Belarus, Latvia, Poland, Azerbaijan, Armenia, Iraq, Libya and many others.

We show with our own experience that a domestic manufacturer can and wants to produce a competitive European product at an affordable price. A distinctive feature of Sweet Arte Company is flexibility, activity and desire to move forward.

Our mission is to be delicious for you!
